

PICHALA SIVA KUMAR REDDY

Chennai, India | +91-6302865630 | pichalasivakumarreddy@gmail.com | linkedin.com/in/pichala-siva-kumar-reddy

PROFESSIONAL SUMMARY

Recent B.Tech graduate in AI & Machine Learning (2026) with hands-on, full-stack experience spanning Python/SQL development, database design, IoT systems, and ML pipelines. Skilled in both Linux and Windows environments, with practical use of Git for version control and end-to-end support of data-driven applications. Looking to contribute as a software developer, application support engineer, or systems/IT operations professional.

EDUCATION

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology — B.Tech, Artificial Intelligence and Machine Learning — CGPA 8.0/10

Narayana Junior College, Nannur — Intermediate (Class XII), BIE AP — 7.56/10

Sri Guru Raja EM School, Nandyal — Secondary School (Class X), BSE AP — 9.8/10

PROJECTS

Bird Species Identification Using Machine Learning

- Built multimodal ML/DL models (image + audio) for species classification using Python, TensorFlow/Keras, and scikit-learn.
- Applied feature extraction (spectrograms, MFCCs, image normalization) and data augmentation to handle class imbalance.
- Benchmarked CNNs against traditional ML baselines using accuracy, precision, recall, and confusion matrices.

Monitoring Grain Spoilage in Warehouses

- Designed an IoT sensor network to track temperature, humidity, and CO2 levels for real-time condition monitoring.
- Implemented threshold-based real-time alerting to proactively flag spoilage risk and reduce post-harvest grain loss.
- Engineered a time-series data architecture and dashboard prototype for scalable, remote monitoring. (Python, IoT, Sensor Networks)

Internet Usage in Rural Areas

- Collected and analyzed survey data on internet accessibility, usage patterns, and digital literacy across rural households.
- Performed data cleaning, exploratory analysis, and statistical evaluation using Python (Pandas, NumPy) to uncover usage trends.
- Visualized findings through charts and dashboards to highlight the urban-rural digital divide. (Excel, Data Visualization)

TECHNICAL SKILLS

Languages & Querying: Python, SQL, HTML, CSS

Databases: MySQL, MongoDB, DBMS Concepts

Tools & Platforms: Git, Docker, VS Code, Eclipse, Linux, Windows

ML / AI: Machine Learning, Deep Learning, Reinforcement Learning, Generative AI

Professional Skills: Problem-solving, Communication

STRENGTHS

- Quick learner with a positive and adaptable attitude
- Strong problem-solving and analytical thinking
- Willingness to learn new technologies and continuously improve
- Good communication and teamwork skills
- Responsible, self-motivated, and goal-oriented

HOBBIES & INTERESTS

- Reading books and exploring new knowledge**
- Learning new technologies and skills
- Traveling and exploring new places

CERTIFICATIONS

- Reinforcement Learning
- Generative AI
- Machine Learning using Python
- AI Tools & ChatGPT Workshop — be10x
